### Ichor Holdings Provides Fiscal First Quarter Business Update

FREMONT, Calif., March 17, 2020 – Ichor Holdings, Ltd. (NASDAQ: ICHR), a leader in the design, engineering and manufacturing of critical fluid delivery subsystems for semiconductor capital equipment, today provided a business update for its fiscal first quarter ending March 27, 2020.

On March 16, 2020, six Bay Area counties in California issued a “shelter-in-place” order, which requires us to temporarily cease our Bay Area operations effective today until April 7, 2020. Additionally on March 16, 2020, the Malaysian government issued a similar order to close certain business activities from March 18, 2020 through March 31, 2020. These two actions have required us to temporarily close our manufacturing sites in Fremont, Ca., Union City Ca., and Malaysia, which will impact our gas panel, weldments, and plastics operations. The financial guidance for the first quarter of 2020, which was provided on February 5, 2020, reflected the best information available to us at that time. Given the impacts to our manufacturing operations and uncertainties that will result from these government-mandated orders, we are withdrawing our prior financial guidance for the first fiscal quarter of 2020.

We are closely monitoring the impact of the COVID-19 virus, which continues to evolve day by day, and our first priority remains the safety and health of our employees and the partners that serve the company. We will provide more information during our next earnings call.

#### About Ichor

---

We are a leader in the design, engineering and manufacturing of critical fluid delivery subsystems and components for semiconductor capital equipment. Our product offerings include gas and chemical delivery subsystems, collectively known as fluid delivery subsystems, which are key elements of the process tools used in the manufacturing of semiconductor devices. Our gas delivery subsystems deliver, monitor and control precise quantities of the specialized gases used in semiconductor manufacturing processes such as etch and deposition. Our chemical delivery subsystems precisely blend and dispense the reactive liquid chemistries used in semiconductor manufacturing processes such as chemical-mechanical planarization, electroplating, and cleaning. We also manufacture precision-machined components, weldments, and proprietary products for use in fluid delivery systems for direct sales to our customers, as well as certain components for internal use in fluid delivery systems and for direct sales to our customers. This vertically-integrated portion of our business is primarily focused on metal and plastic parts that are used in gas and chemical systems, respectively. Ichor is headquartered in Fremont, CA. ## Safe Harbor Statement

---

Certain statements in this release are "forward-looking statements" made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Words such as "guidance," "expects," "intends," "projects," "plans," "believes," "estimates," "targets," "anticipates," "look forward," and similar expressions are used to identify these forward-looking statements.

Examples of forward-looking statements include, but are not limited to, statements regarding financial results for our first fiscal quarter of 2020, as well as any other statement that does not directly relate to any historical or current fact. Forward-looking statements are based on current expectations and assumptions, which may not prove to be accurate. These statements are not guarantees and are subject to risks, uncertainties and changes in circumstances that are difficult to predict. Many factors could cause actual results to differ materially and adversely from these forward-looking statements, including: (1) dependence on expenditures by manufacturers and cyclical downturns in the semiconductor capital equipment industry, (2) reliance on a very small number of original equipment manufacturers for a significant portion of sales, (3) negotiating leverage held by our customers, (4) competitiveness and rapid evolution of the industries in which we participate, (5) risks associated with weakness in the global economy and geopolitical instability, (6) keeping pace with developments in the industries we serve and with technological innovation generally, (7) designing, developing and introducing new products that are accepted by original equipment manufacturers in order to retain our existing customers and obtain new customers, (8) managing our manufacturing and procurement process effectively, (9) defects in our products that could damage our reputation, decrease market acceptance and result in potentially costly litigation, (10) dependence on a limited number of suppliers, and (11) the impact of the COVID-19 virus, any related or unrelated public health threat or fear of such event on economic activity, us and our customers, suppliers, employees, and other business relations, including, but not limited to, demand for our products, workforce availability, and costs to manufacture our products. Additional information concerning these and other factors can be found in Ichor's filings with the Securities and Exchange Commission (the "SEC"), including other risks, relevant factors and uncertainties identified in the "Risk Factors" section of Ichor's Annual Report on Form 10-K filed with the SEC on March 6, 2020, and subsequent filings with the SEC.

All forward-looking statements in this press release are based upon information available to us as of the date hereof, and qualified in their entirety by this cautionary statement. We undertake no obligation to update or revise any forward-looking statements contained herein, whether as a result of actual results, changes in Ichor's expectations, future events or developments, or otherwise, except as required by law.
